WHERE YOU ARE, AND WHAT YOU DO NOW

Always know where you are — *and what comes next.*

Most people don't quit because English is hard. They quit because they lose the thread. A one-minute check places you. Foundations gives you three sentences a day if you need them. And one road, with one lit pin, tells you where you stand and what tomorrow is.

WHAT WEEK TWO USED TO LOOK LIKE

"I opened the app. Six tabs. I did something — not sure it counted. Closed it. Three days later I couldn't remember where I was, so I didn't open it at all."

Nothing is wrong with you. Nobody stays on a road they cannot see.

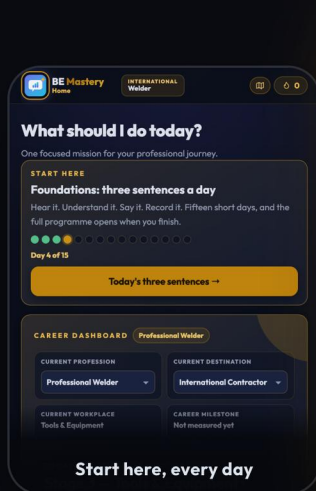

**WHAT WEEK TWO LOOKS LIKE NOW**

"Home says: **Day 4 of 15 — today's three sentences.** Done. The road lights up behind me. **You are here: Stage 3.** Next: Stage 4. I know exactly what tomorrow is."

Three sentences a day

1

Take the check

Three sentences: did you understand each one? Honest answers decide where you start — **not what you're worth.**

2

Foundations, if you need it

Three sentences a day, your language underneath. Hear it, say it, record it. **Fifteen days**, then everything opens.

3

Do the one thing on Home

The card at the top is today's job. Finish it and **the road lights up behind you.**

4

Tap the map, any day

One beacon: you are here. One pin: next. **"Take me to where I am"** — one tap from any screen.
